5.2	Hazards	Sewer Leaks.		Address:
5.3	Hazards	Water Main Breaks.		Address:
5.4	Hazards	Electrical Power. Lines Down. Units without power?		Address:

## EVCNB Individual PreSA Form Filling Instructions

**Time:** Use 24-hour time. For instance: 8 am=0800, 11 am=1100, noon =1200, 1 pm=1300, 8 pm = 2000, midnight=0000.

**Zone/Cluster:** Note the Yellow Radio Zone the assessed area is in. If additionally in a PYN cluster, note both zone and cluster.

**Street:** Note the streets assessed; include start and end points (e.g., "Pine from 4th to 5th"). EACH STREET GETS A SEPARATE FORM.

***For the following, if in doubt between two categories, count in the more severe category.***

---

**1.1: Injuries Minor.** Person is conscious, alert and breathing normally. He/she is injured but can walk. Do not count uninjured persons in this category.

**1.2: Injuries Moderate.** Person is conscious, alert, and breathing normally. He/she has evidence of bleeding that is controlled or he/she cannot walk due to other injuries.

**1.3: Injuries Severe.** Person is not conscious or if conscious is confused or disoriented. He/she may be breathing rapidly. If bleeding, the bleeding is heavy and not controlled.

**1.4: Persons Trapped.** Use this category for persons you see or hear in a building that are not able to get out. Note their injuries in 1.1-1.3 if known. DO NOT ENTER BUILDING TO MAKE ASSESSMENT.

**1.5: Injuries Presumed Dead.** Person is not conscious, not responsive at all, not breathing.

---

**2.1: Fire.** Count all live fires seen. Note if fire involves structures (how many) or just trees/brush. Do not include extinguished fires.

---

**3.1: Access.** Note all roads that are blocked by trees, cars, structures, wires, or other obstructions. Include buckled or flooded roads.

---

**4.1: Buildings Surveyed.** Count number of units observed. A unit is one house, one condo building, one apartment building, one hotel/motel. A unit is considered to be on the street its house numbers are on (or front door if no house numbers). DO NOT WALK AROUND OR ENTER ANY BUILDING - survey from street only. Record house numbers in sections 4.2-4.4 if there is damage.

**4.2: Building Light Damage.** Damage to unit limited to broken windows or siding off/missing or porch damage. No structural damage or roof damage to unit. Do not count undamaged units here. Include them as part of your count in 4.1.

**4.3: Building Moderate Damage.** Some structural damage seen: roof and/or walls tilted or out of alignment.

**4.4: Building Heavy Damage.** Severe structural damage seen: partial or full collapse of unit, unit off foundation, or roof partially or fully off.

---

**5.1: Hazards – Gas/propane Leaks.** Note visual evidence of broken/disconnected propane lines, or smell of propane, with approximate location. Propane has a strong, unpleasant odor like rotten eggs, a skunk's spray, or a dead animal.

**5.2: Hazards – Sewer Leaks.** Note visual evidence of broken/disconnected sewer lines, or smell of sewage, with approximate location.

**5.3: Hazards – Water Main Leaks.** Note visual evidence of broken/disconnected water lines discharging water, with approximate location. Record additionally in 3.1 if broken water main has flooded road.

**5.4: Hazards – Electrical Power.** Note any power lines down from any unit; record additionally in 3.1 if downed lines are blocking road access. Note number of units observed that appear to be without electrical power to unit.
